INDEX TO VOLUME IX.

AGRICULTURAL.

A

Address, by A. W. Dodge, Esq. before Barnstable Ag. Society, 74
Agricultural associations, 345
—— books, 308
—— college, 105
—— furnaces, 49
—— Meetings, 34, 42, 50, 58, 66, 74, 82, 90, 98, 106, 114, 122; remarks on, 73
—— papers, 192, 200
—— report for Nova Scotia, 306
—— schools, 154
—— science, 394, 402
—— statistics, of N. Y, 345
—— Societies, N.Y. State, Transactions of, 224; show of Worcester, 314, Essex, N. Y. State, 329, Middlesex, 330; Rensalaer, N. Y, 330, Plymouth, 338
Agriculture, chemistry, 41, 121; European, by Mr Coleman, 298, 322; Socrates's remarks on, 337; Order of, 378
Air heater, Hanks, 401
Alpaca, 17, 183
Animals, importance of attentive breeding, 57; diseases of, 98; rock salt for, 273; remarks on ruminating, 289; fat result from good keeping, 378; shelter for, 378. See stock, cattle, horses, &c &c
Apples, Golden Ball, 1; John's Sweeting, 10; Aunt Hannah, Granny Earle, Marston's Red Winter, 26; Aunt Hannah, 49; Erie Sweet, Am. Golden Pippin, Sweet Pearmain, Sweet Gilliflower, 20 Ounce, Peck's Pleasant, Nonsuch and nameless kinds, 66; Swaar, 106; Late Baldwin, 113; Beauty, Esopus Spitzenburg, Orange, 130; Red Russet, Beauty, Cranberry, Magnolia, 146; preservation of, 146, 184; Blue Pearmain, &c, 151; Newton Pippin, 163; Groton Russet, 178; very late, 248, 338; crab, 273; Gleason's Favorite, 282; Red Shropshirevine, 282, Grape apple, 282; Summer Queen, Gravenstein, 290; Philip's Sweet, Bowback, Garden Royal, Bruce, 298; for stock, 305, 338; Shirley or Foundling, 322; Hill's Long Stem, Walpole, 330; packing for sea voyages, 337; Mother, 345; Tift Sweeting, Malden's Blush, Everlasting Russet, 346; Pumpkin Sweeting, King, Starkley Pippin, 354; Red Russet, Andover Sweet, Sweet Russet, Holden Pippin, Fall Pippin, 362; Hubbardston Nonsuch, 369; Weston, 370
Apple trees, grafting yearling stocks, 90, 106; the borer, 234; large, 298; worms, 304; bearing years of, 362. See fruit trees, trees, &c
Apricot, Moorpark, 247
Architect, notice of, 200
Aroostook country, remarks on, 401
Artichoke, Jerusalem, 153, 162
Ashes, coal, to keep bugs from vines, 192
Ashes, wood, property of, 90. See manures
Axle trees, safety spring, for, 330

B

Bank, a good one, 345
Barberry, not injurious to grain, 234, its influence on, 353
Barn cellar, 58
Barometer, farmer's, 82, 289
Base wood, American, 247
Beans, time of planting, 154
Beasts, singular habits of in a menagerie, 369
Bees, apiary or bee house, and management, and profits of, 10, 18, 26, 34, 42, 50, 57, 66, 74, 81, 89; Colton's hive, 73, 106; the different sexes, 82; profitable, 824; management of, 97, in spring 98; new theory, 129; description of moth, &c, 199; management, 200; general remarks on, 216; hive, 305; to prevent moth, 305; inquiry, 314; transferring, 370; wintering, 386; in a bed chamber, 390
Bones, see manure
Boys, farmer's on educating, 306
Bricks, making, 82, 223
Buckwheat straw good fodder, 296
Bugs, general remarks on, 178
Buildings, exterior of, 90; materials for, 121, 154, 170, 178; of composition, 170; economy in, 192; of composition, 216; cheap roofs, 223; color and height of, 240; cisterns for, 257; new roofing, 302; composition for roofs, 408
Bushel, the Ohio, 146

C

Cabbages, securing for winter, 378
Cactus, 114
Carrots valuable for horses, 384
Cattle, soiling, 1, 183; currying, 10; stall feeding, 18, 58; barley straw for, 42; discussion on, 58, 65; care of oxen, 65; bloat, 65; keeping in cellars, 73; terms denoting the external part, 105; of Princeton, 106; of the State Society, 106; feed for fattening, 207; flax seed and oil meal for, 346; feeding vs. mowing, 362; weight of, 362; foot ail, 377; management of, 393. See animals, stock, cows
Cattle shows, remarks on their utility, 298. Worcester, 314; Essex, 322; Middlesex, 330; Rensalaer, N. Y, 330; management on rail roads as to shows, 322; Plymouth, 338
Cellars, secure from frost, 370
Cement for floors, 115; a cheap and durable, 345
Chandler, Capt Daniel, obituary notice of, 300
Charcoal, valuable as a purifier, 305
Chemistry in agriculture, 41, 121, 394, 402
Cherry trees, 74; at Hyde's nursery, 234; seedling, 234; Hardwick's, 240; various kinds, 248; new, 298
Chimney's, burn out, 82; construction, 257, smoky, 306
Cisterns for farm buildings, 257; mode of building and cost, 289
Clover among corn, 154
Combustion, spontaneous, 313
Corn, compared with potatoes, 18, 170; cultivation of, 50; from green manure, 122; specimens of, 130; Calico, 154, 234, 290; more attention should be given to different varieties, 162; Chinese, 162, 183; applying manure to, 162; remarks on, 170; hilling, 200; manner of manuring, 257; mode of feeding, 353; manuring for, 274; harvesting, 290; new dryer, 297; improved culture, 345; kiln-drying, 361; fine specimens, 378
Corn fodder, 178
Cow pea, 138
Cows, an extra, 66; warts on the udders, 73; boiled wheat for, 81; Alderney, 191, 305; the old Ayrshire, 223; milch, good water for, 240; warts on teats, 240. See cattle, animals, stock
Cranberry, culture of, 49, 113; premium, 146; on upland, 191
Crops, late, 178; prospects for, 192; remarks on, 200; in Maine, 274, remarks on, 290; large, from manure and labor, 377
Cultivation, thorough, 393
Currants, 138; large, 240
Cultivator, a venerable one, 57

D

Dictionary of Modern Gardening, 208
Domestic Economy. — Graham bread, 9, curing hams, 18,58; to destroy ants, 18; treatment of bread, 33; test for copper, 57; to take spots from leather gloves, 66; to boil salt meat tender, 81; an excellent cheap pudding, 81; to cook parsneps, 122; making cheese, 161, 177, 223, 232, 258; difference in the quality of milk, 182 improved churn, 191, Dairy utensils, 191; hard biscuit, 208; rules for milking, 247; to make good tea, 247; to prepre cream for churning, 347; blackberry mush, 248; rhubarb tartine, 248; brine poisonous, 248; to make soft soap, 257; improved churns, 258; to drive ants, 258; to make soda water, 258; popular errors, 273; dairy management, 281; to preserve peaches, 282; cooking pears, 289; whole meal more nutritive than fine flour, 297; to prevent milk souring, 297; to dye illue, 305; loss of beef in cooking, 313; how to treat lard, 313; test of tea, 313; to make vinegar, 345; to make succatash, 345; smoked mutton, 345; family jars, 345, for chapped hands, 346; nutritive qualities of bread, 353; preserving horse radish, 354; to join glass, 401; curing hams and pork, 402
Drag, new kind, 401
Draining, 313
Drought, effects of prevented by stirring the soil; 191; protection against, 366

E

Ether, application of to vegetable life, 385
Exhibitions, horticultural, improvements in suggested, 298. See Horticultural Societies
Experiments among farmers, 289

F

Facts, on reporting, 305
Farmers of America, to, 146
Farms, model, 113; of B. B. Wellman, 99
Farm accounts, keeping, 305
Farmer, his importance in society, 130; his implements improved, 298
Farming, as an occupation, 58; profits of discussed, 74, 82, 90, 96, 98, 105, 114; profits of, 90, 113, 121, 146, 170, 193, 216, 370, 402; importance of practical knowledge, 114; good and bad, 161; against manufacturing, 185; mode of, 178; city, 215; science in, 394, 402
Fasting, effects of, 340
Fences, discussion on, 34; remarks on, 66; of iron, 241
Fermentation, 9
Fertilization, 322
Figs, notice of, 290
Flax, large amount in Ohio, 298
Flour, average prices, 297
Flower Garden Companion, 154
Flowers, their utility, 386
Foot paths, raised, 216, 345
Forest, 138
Forest trees, inquiry on, 354; on raising, 370; cultivation of, 377
Fruit, culture of, 42; Western, 57; new work on, 90; improvement in, 138; Hovey's new work on, 192; notice of, 200; preserves, 207; prospect for, 224; at Wm Torrey's, Quincy, 232; to protect from insects, 248; kept fresh through the year, 266; Hovey's work on, 282; each kind requires peculiar soil, 282; its importance, 290; effects of good management, 290; at various establishments in Salem, 306; various kinds of Dr Shurtleff, 314; to obtain larger and fairer, 337; general remarks on, 378, 402
Fruit trees, coal tar to protect from mice, 10; to make thrifty, 26; discussion on, 42, 50; wash for, 49, 330; pruning, 49; setting, 98; spring pruning condemned, 98; from the south, 122, 130, 331; protection, 145; care of young, 146; budding, 184, 266; remarks on, 300; caterpillars, black insect, mildew, 216; time for budding, 240; save from drought, 256; disbudding, 274; scions, 290; value of, 346; managing seeds of, 386. See trees, apple trees, &c
Furnace, hot air, 393, 401
Fuel, preparing, 2, 370

G

Garden, fruit and ornamental, of O. Johnson, Lynn, 280; of J. Owen, Cambridge, 298
Gooseberries, to originate new varieties, 183; to prevent mildew in, 200, 224; caterpillars, 216; culture of, 248
Grapes, 74; summer pruning, 74; cultivation of, 114; mildew and blight in, 137; White, Mountain, 162; diseases in, 184; growth of vines, 208; notice of a work on, 258; wormy, 298; large Isabellas, 322; native, 322; Isabella and Catawba, 345; seedlings from Col. Chase, 378; pruning, 394
Grafting apple trees one year old, 90
Grain, to protect from rats, 33; not injured by barberry bush, 225,353; new mode of grinding, 378
Grasses, herds, 33,105,138,208; culture and curing, 105; Italian rye grass, 184,200; winter-killed, 266; history of herds, 345
Green crops, turning down, 162
Guano, see manures

H

Harrows, 9; construction, 145; plan of, 146
Hay, saving in England, 161; caps for, 177; salt for, 216; measuring, 274
Health, remarks on, 18; washing and bathing, 58; to cure a burn, 130; relief for deafness, 216; for cancer, 240, bite of a mad dog, 256; remedy for cramp, 258; for consumption, 257; cold bedrooms, 265; effects of rhubarb, 273,313; poultice for the throat, 273; preservation of the eye, 282; ague in the breast, 282; for sore throat, 290; to remove dust or motes from the eye, 333; management in typhus fever, 369; dietetics, 377; health and comfort, 377; effects of wanting sun and air, 385; preserving health, 395; antidote to poisons, 393; cure for dysentery, 348
Heat, 184; without fuel, 257
Hedges of Hawthorn, 305; Osage orange for, 401
Horse power, 185,361
Hints for the season, 402
Horses currying, 10; cure for founder, 65; remarks on; 89; anatomy of, 145; new, 145; terms denoting the external parts, 161; treatment of colts, 199; cure for slobbers, 258; Lady Messenger and colt, 273 improvement of, 273; management of, 273; disease, 289; flesh of as food, 298; attachment of to man, 305; Black Hawk, 345; club foot in, 361; cornstalks for, 378; remarks on purchasing, 385; carrots valuable for, 385
Horse rake, inventor of, 321
Houses, pise and unburnt brick, 153; of gravel and lime, 153; pise, 159; of gravel, 177; of clay with solid walls, 207; of clay, 225; plaster for, 289; to render the roof of thatch incombustible, 349; plastering those of Clay, 308; plastering the outside, 239; design for, and remarks on, 265; see building
Horticultural Societies Mass, Transactions of, 106; show of, 298; annual Fair, list of premiums, 314, 338; Worcester annual Fair, 314
Horticulture for farmers, 42,49; influence on human character, 154; in Lowell and vicinity, 378
Hot beds of cotton cloth, 122
Humble bees, 170; domesticating, 184
Husbandry, Dutch, 215
Hydraulics for farmers, 215,281,289,297,305,321,? 9,337; Bensons hydraulic ram, 378,402

I

Ice houses, 82; importance of, 401
Industry, results of, 216
Insects, 138, 184; striped bug, 209; to drive worms, 216; bottling them on trees, 238; cure for on plants, 282; new, 313; to destroy by hot water, 354
Iron, converting into steel, 273

L

Lands, renovation of worn out, 290
Labor, well directed, 1; comparative value of free and slave, 114
Laws of manures, 216,366; for farmers, 314,336
Leaves, use of, 257
Light, 184
Lightning rods, construction of, 273

M

Manures, sulphate of ammonia, 1; making, 2; sawdust and shavings for, 50; sea, 82,138; bone, 97; top dressing, compost, ashes, 98; preparation of bone, 98; guano for potatoes, 105; ashes for onions, 132; grain for corn, 122; top dressing, 129,216; peat, 129; increase, 146; rich artificial, 153; applying corn, 162; application of liquid, 177; bone guano, 200; night soil, 216; law of, 216,366; for turneps, 233; to prepare bones, 240; soap, 247; coal ashes, 248; oyster shells, 273; for corn, 274; portable, 290; ashes for manures, 346; night soil and urine, 361; artificial guano; 361; decomposition of in the soil, 401
Marshes, see swamp lands
Maple, sugar, 89
Mechanics Fair, Mass, Charitable, 306; 314
Melon, imperial, 232
Millet, 184
Milk, of different qualities, 1; difference in quality, 183; its production and properties, 369; affected by food of cows, 401
Moon, influence of, 82
Mountain laurel, 122,146

N

New year, 2
Nursery of J. S. Draper, 200; of B. F Cutter, 354; of Asa Clement, 354

O

Oak, durability of, 348
Onions, raising profitable, 90; ashes for, 122; potato, 223; cultivation of, 274,346,312; report on, 386
Orchards, to render beautiful, 1; care in planting, 161; productive, 191
Oxen, see cattle

P

Paper, specimen of superior, 369
Parsneps for swine, 138
Pastures, improvement, 41
Pears, a valuable kind, 26; Vicar of Wakefield, 26; Easter Beurre, 42; new, 82; Harrington, 290; Winship, 290,298; Lewis, Pocahontas, Pierce's seedling, Adams, a nameless kind, 338; Winter Nelis, 345; Duchess de Angouleme, 354; Swan's orange, St Michael, 370; Fulton, 377
Pear trees, inducing fruitfulness, 239; grafting on mountain ash for 240,266,274; soil for, 248; seedlings, 266
Paint, cheap, 208
Peaches, admirable, white magdaleh, Coolidge's favorite, 306; in Lincoln, 314; a large orchard, 332; seedling, 330; Hatch's seedling, 378
Peach trees, to preserve, 17; yellows, 162; charcoal for, 194; remedy for diseased, 191; the grub, 266
Plants, instinct of, 257; food of, 266; age of, 361
Planting close, 362
Ploughs, centre draught, 97; subsoil, 191; wheels to, 258
Ploughing match at Montgomery, 137; deep, 239,330; fall and winter, 385
Ploughing, subsoil, 153
Plums, curculio, 177,178,306,362,385,401; yellow gage, 273; early black, 290; green gage; 306,354
Plum trees, black knots on, 153; salt for, 266,298
Pomological Society, Maine, 154
Posts preserving, 113; on inverting, 199
Potatoes compared with corn, 18,170; substitute for, 42; guano for, 105; early kind, 130; early, 138; general remarks on, 146; do not mix them, 161; for seed, 162; sikali for, 182,184; mode of raising, 162; ashes for, 170,346,354; remarks on, 178; snowball, 178; hilling, 200; the best, 207; insects on, 240,248; general remarks on, 240; history of, 258; preserving, 290; remarks on, 338,369; Seal's Foot, 346; selecting seed, 362; snowball, 378; see potato disease
Potato disease, 10,26,49,81,82,105,122,130; in 1847, 170, 178; natural history of, 154,162,232,248,274,282,282, 290; in Ohio, 298,338,354,354; Essay on, 361,369,386, 394
Poultry, cost of keeping hens, 10; hatching machines, 18,386; amount of hens, 50; produce of hens, 50; profit of, 82; rob meal for hens, 114; a remarkable goose, 122; Dorking hens, 129; diseases of, 207; pip in chickens, 208; to learn the age of, 321,354; iron water for hens, 338; fattening turkeys, 346; lime water for hens, 362; income from, 377; management of, 402
Pruning in spring condemned, 98
Production of the U. States, 247
Pumpkin, Farmington, 362

Q

Quinces, 42; on the thorn, 130,146; on high lands, 314

R

Rain, amount of in 10 days, 274
Rain, amount in 10 days, 274
Raspberries, Fastolff, 74
Rats, to protect grain from 33; to drive, 73, 274, 354; bait for, 106
Rhubarb, culture of, 73 ; as to its effect on health, 273, 362
Rock-boring machine, 138
Roots, report on their culture, 386
Rotation of crops, 199
Rye, on raising, 49; its use in various countries, 257

S

Sap, rise and fall of, 385
School, veterinary, 65
Science in agriculture, 394, 402
Scions, time for cutting, 2
Season, the past, 49; and prospects, 184, and crops, 298
Seeds, successful steep for, 337; managing those of fruit trees, 386
Seed sower, Pratt's, 124
Shad bush, 82
Sheep, Merino, 25; fine wool, 57 ; Leicester, 65; wool influenced by keeping, 65; remarkable disease in, 130; Spanish Merino, 137; sheep husbandry, 145, 189, 353; time for shearing, 162 ; docking lambs, 162; Anglo Merino, 169 ; prolific, 200 ; for grub in the head, 224 ; management, 224 ; Cotswold, 239; weaning lambs, 240; improvement of, 248; grub in the head, 257 ; crossing breeds, 262 ; diseases of, 306; the Reybold flock, 322 ; diseases of, 338; for grub in, 346 ; wool growing in Ohio, 354; the scab, 354; small pox in, 377
Shingles, of cast iron, 2
Snakes, do they hies ? 313
Soils, analysis of, 17, 25, 33 ; on making fertile, 50 ; deep and thorough cultivation, 231; preparation of sandy for wheat, 247; variety of, 337; action of rain water on, 369; varieties of, 385
Soiling, 1, 183, 362
Stock, even temperature for, 10; salt and ashes for, 193; loss of in traveling, 289; transportation of on railroad, 289; apples for, 305 ; water for, 354; hibernation of, 394
Stoves, Mott's Quick Oven, 361
Strawberries, culture of, 17; Burr's seedlings, 207; in the Cincinnati market, 207 ; large yield, 216; native, 216; Fay's seedling, 216; Boston Pine, 231; soil and cultivation, 248; good yield, 258
Summer, retrospect of, 2
Sunflower, 9
Swamp lands, improvement of, 34, 41, 185, 61, 300, 248, 258; their effects upon health, 393
Swine, fattening, 1 ; cooking meal and corn for, 9 ; management, 9; large, 10, 74 ; White Chester breed, 41; Suffolk pigs, 90; parsneps for, 138; work on, 224 ; animal food for, 258 ; a fruitful one, 274 ; how much pork made from a bushel corn, 297 ; attention to, 368

T

Table, a valuable one for calculation, 337
Tannins, remarks on, 122
The West, on moving there, 34
Thistle, Canada, destroying, 265
Thrashers, to preserve from dust, 258
Tillage, importance of deep, 361
Tomato worm, 231
Tools, improvement in, 73
Transplanting, see trees and fruit trees
Trees, transplanting, 90 ; work on, 106; to preserve girdled, 207 ; pruning, 216 ; fall transplanting, 290; their importance, management of, 322; fall transplanting, 330 ; transplanting, 346 ; mode of growing, 346 ; on their recieving nutriment from the soil or air, 401
Turneps, culture of, 191; top dressing for, 223

V

Vaults, to fix gas in, 98
Vegetables, crossbreeding, 9 ; notices of, 192 ; preserver, 257
Veterinarian, American, noticed, 66; remarks on, 222; commended, 262
Veterinary Manual, Hommpathic, 354

W

Walnuts, grafting, 73, 98; English, 338
Water, works, see hydraulics: for stock, 394
Weather, remarkable, 402
Weevils, to destroy, 274
Wet lands, see swamp lands
Wheat, charcoal for, 10; Black Sea, 97, 129; grain worm, 98; China, 130; in Mass, 224; preparation of light soils for, 247; cutting early, 297; Etrurian, 338; cleaning for seed, 361; great yield of, 377; new mode of grinding, 378
Wheels, on greasing, 272
White weed, 208
Wine, in Florida, 345; American, 370
Winter, prepare for, 362
Woodpecker, habits of, 290, 321
Winship's ornamental garden, 232
Work, too much, 216
Worms, to destroy, 146; to drive, 216

Y

Yellow bugs, remedy, 122

ARTS AND SCIENCES.

A

American ingenuity abroad, 306
Artesian well, 338
Arts, improvement in, 49
Astronomical instrument, 230
Athenæum, laying the corner stone of, 153

B

Bank notes, security for, 376
Barrel staves, machine for, 296
Blasting, gun tow applied to, 56
Bolt, new spiral, 409
Boots and shoes, improvement in, 214; rotary heel for, 408
Brick press machine, 48; machine, 296
Bridge, suspension, 160; Menai, 120
Brown's statue of Dr. Bowditch, 139

C

Cabs, improvement in, 214; for measuring distances, 384
Cannon, iron bronzed, 46; in plates, 88; portable rifles, 96
Carpeting in Mass, 168
Cement, marble, 320
Clock, electric, 198
Copy-right, new movement in, 368

D

Destructive, a new, 144
Dimond dust, in demand, 222

E

Engraving, improvement in, 392
Eolian chair, 160

F

File machine, 352; improvement in cutting, 392
Fire escape, 112
Flooring of mosaic glass, 368
Fluid, new, 328

G

Glass, its various uses, 430; for pipes, 400
Glue, water-proof, 222
Gun cotton, 8, 16, 24, 48, 64, 80, 352
Gunnery, improvement in, 90
Gutta peraba, its uses, 336

H

Hat architecture, 384
Heat, improvement in generating, 96
Horses, shoeing in winter, 16; nails, 80
Hot houses, a substitute for glass in, 144

I

India rubber, manufacture of, 250; dissecting glow of, 250
Ingenious machine, 56
Instruments, process of tempering, 280
Invention, beautiful, 184; progress of, 96

J K

Knowledge in power, 219

L

Leather, improvement in, 88
Life buoy, new, 272
Life boat, new, 272
Life preserver, self-inflating, 120
Locomotives, improvement in, 176; new, 280
Loom, new, 272; for stockings, 360

M

Machine for making confections, 120
Mail bags of India rubber, 168
Morticing machine, new, 120

N

Nails, improvement in making, 48

O

Oil, from stones. 198; to purify, 320

P

Paper, transparent and impenetrable to water, 160
Patent office, 288
Percussion caps, 396
Picture, frames by steam 12
Pontoons, 376
Plate to make it look like new, 222
Press, new, 40
Printer, monument to the first, 245; to Daye, 264;
Printing presses, extraordinary, 29; new machine, 160; improvement in, 272; in China, 224
Porcelain manufacture, 168
Power, new propulsive, 24

R

Railway, speed machine for measuring, 206; compass, 272; great speed on, 250; spark arrester, 344; communication through a train, 406
Rivet machine, 384
Roofing of asphaltum felt, 392; composition for, 408
Ropes, improvements in making, 344

S

Screws cheaply made, 80; machine, 104
Shingles, of iron, 80
Ships, new invention for steering, 40
Shoes and boots, improvements in, 214
Shoe pegs by steam, 144
Shower baths, cheap, 112
Smoke, burning of, 206; preventive of, 408
Soundings, machine for taking, 280
Soldiers for brass and copper, 64
Spectacles, new style, 408
Steam, boilers, gas in, 144; factory, 230; navigation new era in, 88; plough, 376
Steel, properties of, 160; make 352
Steering apparatus, new, 80
Sub-marine, explosion, 16; lifter 96
Surgery, new invention for, 56

T

Telegraph, 120; improvement, 280, new, 320; feat in 376; sub-marine, 384
Telescope, large American, 16
Tenor cutting machine, 344
Timepiece, curious, 214
Type setting by steam, 16

W

Water, burning of, 128
Wheels, greasing, 320
Wind wagon, 40, 160
Wounds, immediate cauterization of, 144
